

on July 23, 2010, following a three-year struggle with lung cancer.

Dr. Druker was trained as a clinical dermatologist, but his interest in people was anything but skin-deep. First as a practitioner and professor, then later as an executive, he always sought to engage those around him, to collaborate with and learn from his colleagues and friends. In this way, he nurtured ties between the medical profession and the broader Peninsula community, becoming a pillar of the Palo Alto Medical Foundation and the catalyst for an expanding and increasingly effective community health network.

With all of Dr. Druker's gifts as a doctor and director, it's hard to imagine him in any other profession. But he did not initially intend to enter medicine. Raised in Marshalltown, Iowa, Dr. Druker received his Bachelors Degree in Economics from Harvard University and was accepted by the University of Michigan Law School before changing his mind and entering the University of Iowa Medical School, under the condition that he make up his pre-med requirements first. Dr. Druker's precipitous career change brought him an avalanche of science coursework and ultimately brought Palo Alto residents an exceptional doctor. With his penchant for quiet understatement, Dr. Druker recalled his first year of medical school as "a fun year."

He married his wife Karen in 1966 and served two years in the U.S. Army before finishing his residency at the University of Oregon in 1975. After a year of private practice in Portland, Dr. Druker moved to Palo Alto to join what was then the Palo Alto Medical Clinic. While seeing 30 dermatology patients a day and teaching at the Stanford University School of Medicine, Dr. Druker rose to hold a number of leadership positions in the clinic and in regional and national organizations. He became Executive Director and then Chief Operating Officer of what had become, under his leadership, the Palo Alto Medical Foundation (PAMF), before being named President and Chief Executive Officer of PAMF in 1999.

Guided by Dr. Druker's vision of high-quality outpatient care and his "multi-specialty group practice" healthcare model, PAMF vastly expanded its range and its roster. The Foundation grew from 120 to nearly 1,000 physicians and now serves locations throughout the Bay Area, including Sunnyvale, Fremont, Los Altos, San Carlos, and Burlingame. Dr. Druker played a leading role in cementing the alliance between PAMF and Sutter Health in 1993, further integrating and enhancing community health services. The Palo Alto Medical Foundation remembered Dr. Druker as man who had "a particular passion for children and education, and fostered long standing partnerships with schools." Along with his commitment to the health of youth, Dr. Druker promoted the idea of a "Center for Innovation" at PAMF to generate new and better approaches to clinical care.

Dr. Druker made countless contributions to the wider medical community as well. He chaired the American Medical Group Association and the California Medical Group Association, and served on the Board of the Unified Medical Group Association. He was a Trustee of the California Medical Association, a Fellow of the American Academy of Dermatology, and belonged to the Santa Clara County Med-

ical Society, the California Medical Association, and the American Medical Association, among other affiliations. In addition to these responsibilities, Dr. Druker found time to author papers and textbooks on dermatology and medical administration, all the while devoting himself to his wife, his children, and his grandchildren.

Dr. Druker's impressive accomplishments have immeasurably enriched our community, but perhaps his most lasting legacy lies in the devoted care of his patients. One patient remembered him as "a great guy and a fantastic doctor," a physician whose gentleness left the patient "with this lasting fondness after all these years." Another simply and powerfully noted that back in the early 1980's, "he saved my boyfriend's life."

Madam Speaker, I ask my colleagues to join me in extending our deepest condolences to Dr. Druker's wife, Karen; his children, Daniel and Ellie; his five grandchildren; and his two sisters, Hannah and Leah. Dr. Druker's intellect and passion led him to become the human foundation of the Palo Alto Medical Foundation and the Peninsula's physician and friend. Whether diagnosing a patient or directing new and exciting health advances, Dr. David Druker's warm heart and healing hands will be missed by all who were touched by his dedication and humanity.

HONORING GEORGE WILFORD ARNOLD

HON. ED WHITFIELD

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. WHITFIELD. Madam Speaker, I rise today to honor George Wilford Arnold for his lifelong contributions within his community. I wish to recognize his accomplishments by recalling some of his many achievements as an outstanding public servant.

Mr. Arnold began his public service in the U.S. Army Air Corps during World War II, and this service to his country and community continued throughout his life. Following his military service Mr. Arnold served on multiple boards as well as civic organizations that worked to improve the quality of life in the surrounding region. After many years of service he became a self-taught visionary seeking to improve the supply and the quality of water for his city, county, and region. This dedication to improving the people's quality of life led him to serve as chairman of the Logan/Todd Regional Water Commission from 1997 to 2003 and the executive director from 2003 to 2005. Mr. Arnold also served as the Mayor of Adairville for almost 20 years. During this time he was both trusted and respected for his commitment to the people.

In his community and surrounding area, Mayor George Wilford Arnold was seen as an example of hard work and ingenuity. One of his greatest strengths was that he possessed an unwavering belief in the people he represented. His work and leadership are largely responsible for the advancements of drinkable water within the First Congressional District.

Madam Speaker, Mayor George Wilford Arnold was an integral part of Kentucky's growth

and advancement and it is an honor for me to bring to the attention of this House the achievements of this extraordinary gentleman. Although the death of Mayor Arnold is a great loss to our District, his work will live on in the many accomplishments we recognize here today.

RECOGNIZING THE ACHIEVEMENTS OF THE HAWAIIAN PARTICIPANTS IN THE HOSA NATIONAL LEADERSHIP CONFERENCE

HON. CHARLES K. DJOU

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. DJOU. Madam Speaker, I rise today to recognize the students of Hawai'i HOSA who traveled to Orlando to compete in 25 health-related medical events with 7,000 delegates from 46 states. The excellence displayed by the team throughout this competition is indicative of the bright futures they can have in the health care community.

Hawai'i sent a delegation of 84 students from 12 high schools and four colleges from Maui and Oahu to compete in the 2010 HOSA National Leadership Conference. Hawai'i is incredibly proud of the 13 students awarded Top 3 Medallions and the 18 students who earned the Top 10 Finalist award. I would like to recognize the following students from Hawai'i for their tremendous accomplishments at the HOSA National Leadership Conference: Rance China, Josie Gomez, Brianna Daranciag, Ashley Layco, Carianne Matsuo, Ana Liza Capulong, Sandra Jamilla, Joybell Pablo, Vanessa Joy Sagaoinit, Tony Valdez Jr, Britteny Acoba, Joleen-Taylor Baxa, Marikris Racho, Nicole Kawahara, Allen Orense, Kevin Quitoriano, Kimiyo Lindley, Gladys Meir Baloran, Cheryl Batara, Diana Simon, Woody Hoshibata, Brandy-Shaye Austerlitz, Mericris Neyra, Catherine Sabio, Ty Nakama, Zachery Grace, Nicole Colello, Samantha DeLeon, Liane Hisamoto, Aprilei Ramirez, Alnora Murai, Ruel Reyes, Lisa Kaaihue, Charmaine Alontaga, Shaneen Northington, Lian Balmores, Jenna Maligro, Judy Sadoyama, Harriet Gumban, Brittnay Acoba, Jade Simpliciano, Angel Badua, Johnelyn Cadang, Jensine Domingo, Benedict Juliano, Suzanne Lieu, Shaynna Palasigue, Kristine Saguid, and Theodore Ueki.

The Health Occupations Students of America (HOSA) promotes knowledge, technology education, and skill and leadership development for all health sciences to prepare and equip our students to meet the needs of the future healthcare community. Programs like HOSA promote academic excellence, encourage our students to specialize in subjects that interest them, and allow our students to interact with peers from around the country who share those interests. Education is crucial to our success as a nation and we must continue to ensure that quality education remains a priority.

On behalf of the schools, parents, and teachers of the First Congressional District of Hawai'i, I would like to extend my congratulations to the students of Hawai'i HOSA. Aloha.

HONORING DAVID ROMERO

HON. LOIS CAPPS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mrs. CAPPS. Madam Speaker, I rise today to pay tribute to my constituent David Romero from San Luis Obispo, CA.

Mr. Romero is retiring as mayor of San Luis Obispo, after holding this office since 2002. Prior to serving as mayor, Mr. Romero served on the City Council, worked as the Public Works Director and further dedicated himself to our community by lecturing at Cal Poly, and serving in the Chamber of Commerce, SLO Council of Governments and SLO Regional Transit Authority.

Mr. Romero is a true public servant, and his contribution to San Luis Obispo and the greater community will not be forgotten any time soon. He is a sterling example of the work that a city can accomplish when its citizens roll up their sleeves, work together and dedicate themselves to making their community a better place.

It has been an honor to work with him to ensure the residents of San Luis Obispo are well-represented locally and in Washington, DC. In our conversations over the years, I am consistently struck by the dedication and responsibility he feels towards his friends and neighbors of this beautiful city.

On behalf of the entire San Luis Obispo community, I am proud to honor Mr. Romero and his wonderful family today. I wish him much rest and relaxation in his retirement!

CONGRATULATIONS TO THE MISSOURI STATE HIGHWAY PATROL

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. SKELTON. Madam Speaker, it has come to my attention that the Missouri State Highway Patrol recently received the 2010 Outstanding Law Enforcement Agency Award from Mothers Against Drunk Driving. I am proud to pay tribute to the men and women of the Highway Patrol and the exceptional service and protection they provide the citizens of Missouri.

For years, Missouri's Highway Patrol has been a national leader among law enforcement agencies in the fight to prevent drunk driving and care for the victims of this senseless crime. Sobriety check points and effective patrols have resulted in almost 285,000 DWI arrests since 1980, and investigations by the Highway Patrol have led to more than 17,600 criminal charges against drunk drivers in the same time period.

While these statistics are truly impressive and important to note, the Highway Patrol's greatest success cannot be measured. Countless lives are saved everyday because of the Highway Patrol's hard work and commitment to protecting Missouri families from the dangers of drunk driving. And, for those who are sadly affected by drunk driving, the Highway Patrol stands ready to help with a victim advocacy program that has long been considered among the finest in the nation. To date, the

program has served victims in every county in Missouri. All these initiatives are complimented by the Highway Patrol's efforts to educate young people about the dangers drunk driving poses to all Missouri drivers.

Madam Speaker, the Missouri State Highway Patrol can be proud of all it has done for the State of Missouri, and they should be congratulated for receiving this well deserved award. I trust my fellow members of the House will join me in congratulating the men and women of the Highway Patrol.

IN HONOR OF TRICIA ROBERTS

HON. MICHAEL N. CASTLE

OF DELAWARE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. CASTLE. Madam Speaker, it is with great pleasure that I recognize a great Delawarean, Tricia Roberts, a recipient of the Kathryn J.R. Swanson Public Service Award from the Governors Highway Safety Association (GHSA). Tricia was given this prestigious award for her tireless dedication to keeping Delaware's roadways safe during her career with the Office of Highway Safety (OHS). I am honored that the GHSA has selected Tricia for this award as she is certainly well-deserving. I also wish Tricia all the best in her new found retirement.

Tricia joined the Delaware OHS as a community relations officer in 1989, while I was serving as Governor of Delaware. Through hard work and determination, Tricia quickly rose to director of OHS in 1994. During her time as director, Tricia led the charge to enact strong motor vehicle safety measures, such as the primary seat belt law, bicycle helmet law, and the repeat DUI offender legislation. After legislation was signed into law in 2000 to make a .08 blood alcohol level the standard in all 50 states, which I and others in the House of Representatives worked to pass, Tricia worked tirelessly for several years to toughen drunk driving laws in Delaware to meet federal requirements. Also a steadfast proponent of Checkpoint Strikeforce DUI prevention programs, Tricia was extremely dedicated to keeping impaired drivers off of Delaware's roads. Her innovative measures and dedication to highway safety has improved Delaware's roadways and undoubtedly ensured the safety of thousands.

I am proud to represent a state where individuals such as Tricia Roberts reside. I am extremely grateful for Tricia's efforts toward improving highway safety and I wish her all the best in retirement. It is individuals like Tricia that give Delaware the good name that it has.

BREAST CANCER AWARENESS MONTH

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 29, 2010

Mr. WAXMAN. Madam Speaker, October 1 is the beginning of Breast Cancer Awareness Month. This is a moment to reflect on the great work done by scientists, physicians and nurses, patients, survivors, and their families

every day to detect, treat, prevent and—one day—cure breast cancer. It is a time to recall the personal losses of so many family members and friends. And it is an occasion to measure the important progress made against breast cancer and the improvement in the chances of survival and in the quality of life for women and men with breast cancer.

But, for the more than 200,000 American women diagnosed with breast cancer this year, and the 40,000 who will die from breast cancer, it is also time for us to renew our commitment in this struggle, to reaffirm that we will complete this work, meet unmet needs, and once and for all end the risk of breast cancer to our families and our children.

This is a struggle that we willingly take on for our families, and for families around the world, where a woman dies from breast cancer every minute of every hour of every day. This year, 1.3 million women worldwide will be diagnosed with breast cancer, and of them a half million will die from breast cancer. As we mark Breast Cancer Awareness Month in the United States, we do so as members of a global community facing a common health threat.

This year brings other important commemorative milestones in the fight against breast cancer. I learned recently that this year is the thirtieth anniversary of Nancy Brinker's promise to her sister, Susan G. Komen, to pursue a cure for breast cancer—a promise that helped spark vital patient advocacy worldwide in the race for a cure.

This is the twentieth anniversary of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP), administered by the Centers for Disease Control and Prevention (CDC). In 1990, Congress stepped in to give women access to early cancer detection. By passing this law, we sent the message that no woman should have to forgo life-saving tests because she can't afford them. More than 3 million American women have benefited from this program.

This is also the tenth anniversary of the National Breast and Cervical Cancer Prevention and Treatment Act, which expanded Medicaid coverage for American women diagnosed through the screening and early detection services supported by NBCCEDP. Today, this coverage is available in all fifty States.

Last year, in passing comprehensive health care reform, we built on these early achievements by expanding health coverage and making preventive health care more accessible for all Americans. We did this because uninsured cancer patients are 60 percent more likely to die than privately insured patients within five years of diagnosis. We did this because of the tens of millions of uninsured Americans who deserve screening, treatment and care—but do not receive them today.

We have important work that remains to be done. Only a fraction of the American women eligible to receive preventive health services under NBCCEDP do so. There are waiting lists at clinics, which mean women whose cancers could have been caught early and treated instead find out when their disease has progressed and spread. There are new screening technologies to be developed, new treatments and hopefully cures that await discovery.

Madam Speaker, I hope that every American family takes a moment during October to reflect on the progress we've made against
